SUBMARINE IS MERCHANT SHIP

TREASURY OVERRIDES PROTEST OF THE ALLIED CONSULS

BRITISH AND FRENCH MINISTERS DECLARE UNDERSEA BOAT A MENACE TO THEIR MARINE

Contention of the Allies That the Big Underseas Craft Could Take on Armament Outside Three Mile Limit and Prey on Commerce is Offset By U. S. Naval Examining Board, That Structurally the Submarine is Unfitted to Carry Offensive Artillery.

(By Associated Press.)
WASHINGTON, July 11.—The treasury department has advised the state department that the Deutschland is unarmed and a freight carrier which could not be converted for offensive purposes without "extensive structural changes."

(By Associated Press.)
WASHINGTON, July 11.—Representations were made to the

state department today by the British and French embassies stating their claim that the Deutschland is potentially a warship though used for a merchantman. The department will consider their views.

From the allies' viewpoint the submarine is essentially a warship. It is argued it would not be a violation of international law, according to the German interpretation, for the Deutschland to take aboard an armament outside the three mile limit and prey on commerce.

French in a Better Position to Repel Counter Attacks in Valley of the Somme

(By Associated Press.)
PARIS, July 11.—The French continue to report satisfactory progress in the great Picardy offensive. Operations are being confined to the southern echelon, which has extended its hold upon the northern plateau opposite Peronne. The French yesterday captured all German positions on hill 97, the plateau's highest point. The result of the fighting has been to command the left bank of the Somme from Feuilleres to Flaucourt. The French now are in position to attack Peronne, around which they are beginning to throw a ring of heavy artillery fire.

(By Associated Press.)
LONDON, July 11.—With the French capture of Lamaisonnette hill, which dominates the valley of the Somme and which is the observatory of Peronne, one of the primary objects of the Anglo-French offensive has been achieved. The armies now engaged will organize to extend the limits of the ground gained by repelling German counter attacks. These are directed chiefly against the British line north of the Somme, where they have gained a footing in Trones wood.

The Germans are shelling the allied front from Lens to the Belgian coast, but no attempts are made for infantry attacks.

(By Associated Press.)
LONDON, July 11.—The British captured Contalmaison last night, says an official message. Several lines of trenches in Mametz wood were captured. Heavy fighting continues in Trones wood.

(By Associated Press.)
BERLIN, July 11.—Russians advancing in the direction of Koxel were beaten back by the Germans in a counter attack near Hulewice.

The development of the afternoon newspaper is steady because it is based on the ability to give better service to the public.

DEFENCE BEGINS ORPET ARGUMENT

COUNSEL FOR PRISONER SAYS ANYTHING WAS PREFERABLE TO PUBLICITY GIVEN CASE

(By Associated Press.)
WAUKEGAN, July 11.—Argument in the defense of Orpet was begun this morning by Leslie P. Hanna, who said the defendant took the stand as a fair witness, saying: "It would have been folly for him to take the stand unless he was prepared to tell the truth and the whole truth." He said the cross examination by Joslyn was both "brutal and unfair." He said Marion's death either by suicide or murder meant exposure for Orpet, while he remained in comparative safety if she remained alive.

JACK THOMAS PUT IN CHARGE OF RESCUE

OLD BOARD REELECTED AND FOREMAN TO TAKE CHARGE OF THE PROPERTY

The annual meeting of the stockholders of the Rescue-Eula Mining company, held in San Francisco yesterday afternoon, resulted in the re-election of the old board of directors and the re-election of the former officers. The only change was the naming of Joe Josephs to the director in place of Ed. Luckett, deceased. The result was as follows: President, Charles D. Laing; vice president, Hermann Zadig; secretary, Charles D. Olney; directors, C. D. Laing, Hermann Zadig, Joe Josephs, J. W. Dorsey and William Edwards.

The result is accepted as a vote of confidence in the old management, which has had charge of the property for the past eight years and under whose control it was brought from a prospect to a producing mine.

J. A. Thomas, former foreman of the mine, was advanced to the position of superintendent, taking the place of J. W. Sherwin, whose entire time will be devoted to the interests of the West End and Halifax mining companies. It was with this understanding that Mr. Sherwin was elected to fill the vacancy with these two companies due to the death of John W. Chandler and he has continued in the position at the request of the Rescue management until a choice could be made by the full board of directors at the annual meeting.

Mr. Thomas has been working in the mines of Tonopah for the past eight years, during which time he has been employed by the Belmont, Tonopah Mining and the MacNamara. As a miner he has spent the greater
